

Splitability now integrates with Presto Smart, Westpac's new integrated payment solution.

We're excited to announce we're now integrated with Westpac's new EFTPOS terminal, Presto Smart.

Designed to make in-store payments fast, seamless and easy, Presto Smart directly connects to your Splitability point of sale system, helping you speed up sales so you can focus on what matters: your customers and your business.

Fast payments, simple reconciliation

Streamline your payment processes with no more manual typing of payment amounts into your EFTPOS terminal for fuss-free end-of-day reconciliation.

Easy to set up, easy to use

Once your POS and POS software has been updated, Presto Smart is easy to set up and get started and intuitive for you and your team to use, and available with two industry-leading EFTPOS terminals

Take payments anywhere in store

Take secure payments anywhere in-store. Let customers pay at the counter or on the sales floor, and make tap and go, insert, or swipe payments all on the one device.

Stable and supported

On certain terminals, Presto Smart will automatically switch over to 3G* should your main communication method drop out so you never miss a sale.

24/7 local support

Technical support is available 24/7 should you need it.
